### About Our Grains

- Our wheat is better! Our 4 PRIME WHEAT growing factors:

#### **1) High altitude 2) Semi-arid 3) Hot days 4) Cool nights**

*These four crucial factors come together to "stress" the grain. When the grain is "stressed" it produces a higher protein content for better nutrition and the semi-arid conditions keep the moisture content low resulting in longer shelf life.*

- We offer Certified Organic and Natural products
- All grains are Non GMO
- Kosher Certified by the Orthodox Union (OU)
- Quadruple cleaning means no dirt, stones, or foreign debris.
